

2019 -CS352 - Assignment 4: SelfieShare Load Balancer

Member Name	USN	Section	#hrs effort
Kunal Paliwal	01FB16ECS172	C	2
Vishal S Rao	01FB16ECS450	H	2
Vishnu V Singh	01FB16ECS451	H	2
Sanjana U	01FB16ECS478	H	2

Date of Evaluation

Evaluator

1. AWS username on which demo was shown
 - **sanju9710@gmail.com**
2. Summarize your learning as part of this assignment
 - **Working of a load balancer and its uses.**
 - **Path-based routing vs Host-based routing.**
 - **Launching a load balancer on AWS (creating target groups)**

Any other observations/challenges/comments

Writing API to count the number of HTTP requests required us to include a function which needed to be called in all the previously implemented APIs.
